Good afternoon,

Uber has consistently provided more reliable, efficient, and cost friendly service than taxi companies and I do not agree with this order. Why is this happening in South Carolina and not in other states?

I am an Uber driver and I take pride in the fact that we get our customers home safely!! Charleston SC has great night life and party goers need rides home, not only do we keep the college students and other party goers safe but Uber drivers keep the roads safe for everyone!! Uber saves lives!!!

Dear Sir/Madam,

Uber is practically the only reason why young professionals can choose to live in South Carolina, where the public transportation is so difficult to use.

Please embrace the positive changes in the community and make this State a more welcoming place for people to work and live.

Sincerely,

Members of the South Carolina Public Service Commission,

While I understand your motivation to enforce state laws strictly and consistently, banning the Uber service in the state is absolutely not the right way to accomplish this end. I realize that taxi drivers and companies consider Uber unfair and have lobbied exhaustively to eliminate their competition and restore the monopoly they have long enjoyed in the transportation market.

Having lived in Charleston for over six years, I can assure you that public transportation and taxi companies do not fill the market need for safe, reliable transportation. This is particularly true in the downtown area, where young professionals and students enjoy a lively nightlife and are often forced to drive themselves home in situations they should not, due to scarcity and/or costliness of taxis.

Rather than shutting down Uber entirely, could you consider allowing the service to continue on a provisional basis while proper certification is obtained? Decisions like yours damage the public trust in our government, for particularly young adults like myself. If you are truly invested in the public safety of your citizens, please reconsider this decision.

Sincerely,

Chris Bellande
